

NEIGHBORHOOD CALL TREE - CONTACT LIST

YOUR NAME	CELL NUMBER	ADDRESS

First Name	Last Name	Cell Number	Address	Notes

NEIGHBORHOOD POLICE PATROL OFFICER INFO	NAME	CELL NUMBER	NOTES / INSTRUCTIONS

Simple Steps to creating a call tree:

- Step 1:** You invite 8-10 neighbors to join a neighborhood call tree for emergencies or urgent needs.
- Step 2:** You offer your cell number to neighbors. Ask for the participating neighbor to text their name back to you to be included in the call tree. (This ensures the contact information is accurate).
- Step 3:** After gathering all willing neighbors' contact info, you can loop in everyone in the group with a group 'welcome' text.
- Step 4:** Move quickly when an emergency need arises.

Be clear on the outset that this is a neighborhood call tree for **emergencies and urgent needs only** (medical emergency such as illness, food/water, grocery run, prescription pick-up, job loss, elderly neighbor welfare check-in).
